

- 1 National Research Center for Scientific Research "Demokritos" [NCSR-D], Greece.
- 2 University of Durham [UDUR], United Kingdom.
- 3 Universidad de Granada [UGR], Spain.
- 4 Instytut Fizyki Jadrowej im. Henryka Niewodniczanskiego Polskiej Akademii Nauk [IFJ-PAN], Poland.
- 5 Instituto Superior Tecnico [IST], Portugal.
- 6 Laboratoire de Physique Théorique, Université Paris Sud [UPS], France.
- 7 Max-Planck-Gesellschaft zur Förderung der Wissenschaften e.V. [MPG], Germany.
- 8 Stichting Katholieke Universiteit, named Radboud University Nijmegen [RU], The Netherlands.
- 9 Istituto Nazionale di Fisica Nucleare (INFN) [INFN], Italy.
- 10 Dipartimento di Fisica Teorica, Università di Torino [DFTTO], Italy.
- 11 Österreichische Akademie der Wissenschaften/Institut für Hochenergiephysik [OEAW / HEPHY Vienna], Austria.
- 12 Paul Scherrer Institut (PSI) [PSI], Switzerland.
- 13 Deutsches Elektronen-Synchrotron (DESY) [DESY], Germany.
- 14 European Organization For Nuclear Research (CERN) [CERN], Switzerland, International Organization of European Interest.
- 15 Skobeltsyn Institute of Nuclear Physics of Moscow State University [SINP MSU], The Russian Federation.
- 16 Brookhaven National Laboratory (BNL) [BNL], The United States of America.
- 17 High Energy Accelerator Research Organization (KEK) [KEK], Japan.

The Coordinator, National Research Center for Scientific Research "Demokritos", which is carrying out part of the work, will be supported by researchers from Universities and/or Research Centers in Athens, Thessaloniki, Patras and Sofia (Bulgaria).

The Contractor, University of Durham, which is carrying out part of the work, will be supported by researchers from Universities and/or Research Centers in Cambridge, Edinburgh, Glasgow and Southampton.

The Contractor, Universidad de Granada, which is carrying out part of the work, will be supported by researchers from Universities and/or Research Centers in Granada, Barcelona, Madrid, Santander and Valencia.

The Contractor, Instytut Fizyki Jadrowej im. Henryka Niewodniczanskiego Polskiej Akademii Nauk, which is carrying out part of the work, will be supported by researchers from Universities and/or Research Centers in Katowice (Silesia), Warsaw and Vilnius (Lithuania).

The Contractor, Laboratoire de Physique Théorique, Université Paris Sud, which is carrying out part of the work, will be supported by researchers from Universities and/or Research Centers in Orsay, Montpellier and Anecy.

The Contractor, Max-Planck-Gesellschaft zur Förderung der Wissenschaften e.V., which is carrying out part of the work, will be supported by researchers from Universities in Karlsruhe and Würzburg.

The Contractor, Stichting Katholieke Universiteit, named Radboud University Nijmegen, which is carrying out part of the work, will be supported by researchers from Universities and/or Research Centers in NIKHEF in Amsterdam, Leiden and Louvain (Belgium).

The Contractor, Istituto Nazionale di Fisica Nucleare (INFN), which is carrying out part of the work, will be supported by researchers from Universities and/or Research Centers in Rome, Padua and Milan.

The Contractor, Dipartimento di Fisica Teorica, Università di Torino, which is carrying out part of the work, will be supported by researchers from Universities and/or Research Centers in Bologna.

The Contractor, Österreichische Akademie der Wissenschaften/Institut für Hochenergiephysik, which is carrying out part of the work, will be supported by researchers from Universities and/or Research Centers in Vienna and Zagreb (Croatia).

The Contractor, Paul Scherrer Institut (PSI), which is carrying out part of the work, will be supported by researchers from ETH and University of Zurich.

The Contractor, Deutsches Elektronen-Synchrotron (DESY), which is carrying out part of the work, will be supported by researchers from Universities and/or Research Centers in Hamburg, Zeuthen, Dresden, Aachen and Freiburg.

The Contractor, Skobeltsyn Institute of Nuclear Physics, which is carrying out part of the work, will be supported by researchers from the Joint Institute of Nuclear Research, Dubna.

The Contractor, Brookhaven National Laboratory (BNL), which is carrying out part of the work, will be supported by researchers from University of Buffalo, University of California Los Angeles (UCLA), University of Florida, University of Rochester and SLAC.

The Contractor, High Energy Accelerator Research Organization (KEK), which is carrying out part of the work, will be supported by researchers from Kogakuin University, Rikkyo University, Meijigakuin University, Nagoya University and Hiroshima University.
